COSCO Service Information

Current Export Booking Restrictions in Place

- **Cincinnati, OH & Louisville, KY via Prince Rupert** – All IPI (intermodal/inland point) bookings are restricted indefinitely via Prince Rupert. Alternate routes are available via East Coast ports and Long Beach/Los Angeles. East Coast routes are preferred.
- **Shipments to Mongolia** – Any shipments booked to CY Xingang, China, but will ultimately transit to Mongolia, must be identified at the time of booking. You must advise the Customer Service Rep that the cargo will transit to Mongolia. This will ensure the proper routing is secured for the booking via a non-China port if the Xingang call is non-direct. If you book online, also choose non-China transshipment routing to Xingang if it is not a direct call. Add a remark to your booking request indicating “Cargo in transit to Mongolia”. That remark should also be added to your bill of lading instructions. Failure to follow these instructions will result in additional costs. The non-China port transshipment is a requirement of Tianjin Customs.
